DALI RUBICON SERIES

Bringing you a step closer to “the real thing”

Introducing the DALI RUBICON speaker series:
delivering an unparalleled audio experience
from Denmark to everyone, everywhere.

For more than three decades we've been devoted to the pursuit of audio excellence. DALI RUBICON is our latest landmark on that journey. Designed and crafted in Denmark, RUBICON stands on the shoulders of the EPICON series; building on the innovative driver technology it introduced to bring a room-filling audio experience to the broadest audience. With a simple, sleek, stylish design, RUBICON elegantly brings the feel of a live performance to your home. You're in for an experience...

DALI RUBICON family

DALI RUBICON 2

The RUBICON 2 stand speaker is rich on detail with impressive bass response for such a compact frame. It's comprised of an ultra-light, soft dome tweeter, 6.5-inch wood fibre low-loss driver, and gold-plated terminals.

DALI RUBICON 5

Offering more of everything, the RUBICON 5 floor standing speaker utilises its hybrid tweeter module and larger cabinet volume to extend and widen high frequencies for even crisper detail. Bass is deep and perfectly timed.

DALI RUBICON 6

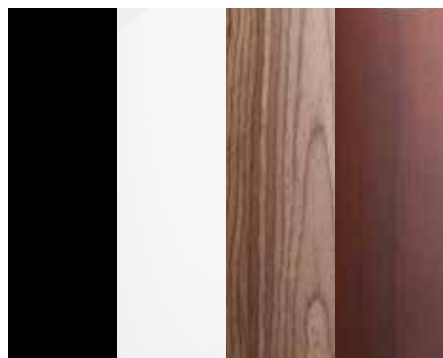

Taking the power up a notch but staying just as well behaved, the RUBICON 6 delivers well-mannered power courtesy of two wood fibre woofers. Gold-plated bi-wiring terminals are available.

DALI RUBICON 8

Delivering a staggeringly large soundstage and deep, physical bass, the powerful RUBICON 8 houses three wood fibre drivers and also offers gold-plated bi-wiring terminals.

DALI RUBICON LCR

Simply in a class of its own, the RUBICON LCR is a wall mount speaker with hybrid tweeter module and wood fibre low-loss driver, delivering a wide dynamic range with bass response that's unrivalled in its class.

DALI RUBICON cabinet

Drawing inspiration from the clean lines of the DALI MENTOR MENUET loudspeakers, the RUBICON series cabinets are made from solid MDF and available in four finishes: high-gloss black, high-gloss white, walnut, or rosso.

DALI RUBICON tweeter module

An optimized version of the breakthrough EPICON ribbon/29mm soft dome hybrid tweeter module, the RUBICON sound breaks with traditional loudspeaker conventions to provide rich detail with impeccable high frequency reproduction.

DALI RUBICON SMC driver

DALI's 6.5-inch wood fibre cone uses the unique soft magnetic compound (SMC) magnet motor system pioneered for the flagship EPICON series and delivering a startlingly clear, open sound with very low distortion and coloration.
